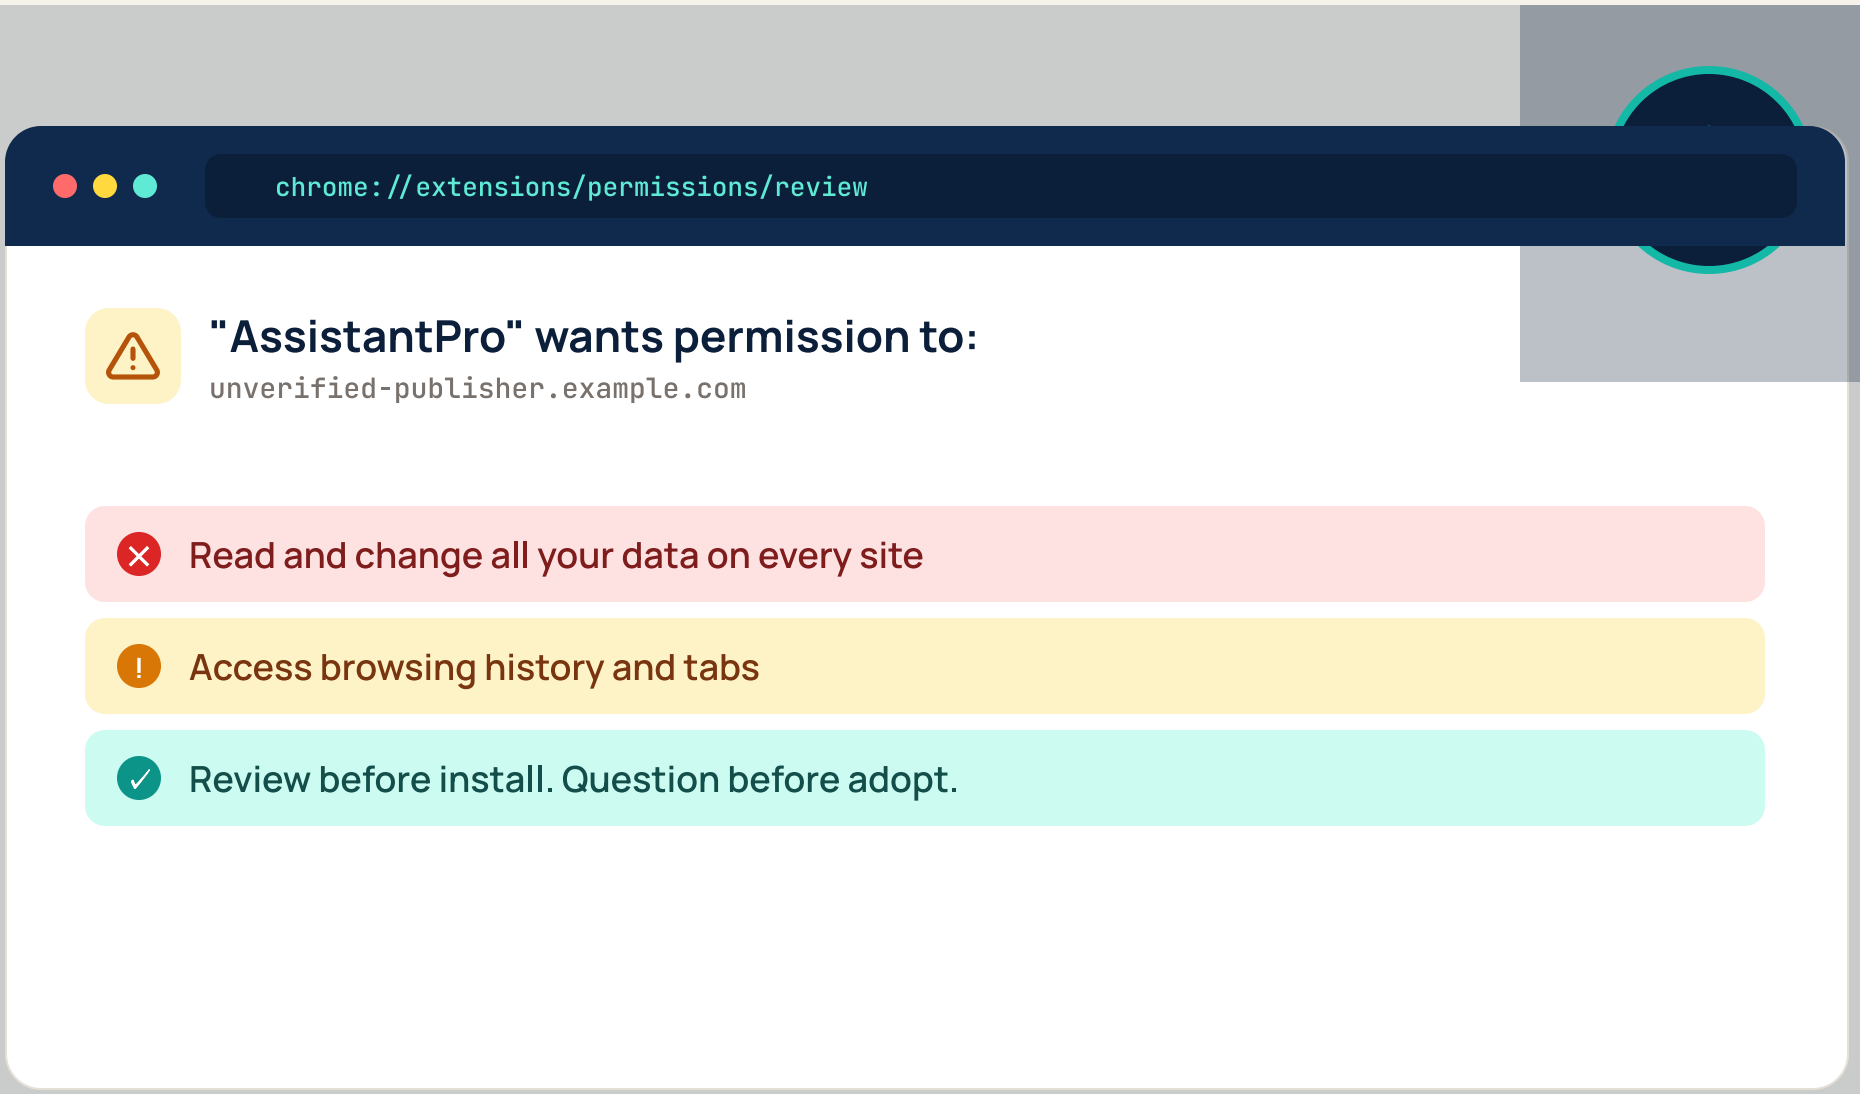
SECURITY STARTS WITH AWARENESS

Think Before You Click.



Richard brought a cybersecurity mindset into LIFE3's workflow by questioning browser extension permissions, third-party access, and tool security before adoption.

LEADING PASSWORD CONTROL

A Password System That Secures.

LIFE3 SECURE VAULT · ENCRYPTED

Shared Password File

MASTER KEY REQUIRED

SINGLE MASTER PASSPHRASE

Known only by LIFE3 team. Memorable to us. Impossible to guess outside.

SVC	USERNAME	URL	PASSWORD	STATUS
L	life3.admin	lms.life3.org	k9#qV4&m_x7Pz!Lr3	UNIQUE
C	life3.team	crm.life3.org	8Fp%bN2qZ@vH6$wY	UNIQUE
W	life3.web	cms.life3.org	Q3!cR7^jD9*Tu5Mn	UNIQUE

Richard built a master-protected file holding every LIFE3 login. One leak no longer opens every door, because no two accounts share the same key.

WEBSITE DEVELOPMENT WITH RISK AWARENESS

REVIEW NOTES

Lovable Prototype

✓ KEEP
Cleaner hero, stronger mission framing

! REFINE
Remove duplicate CTAs, consolidate nav

⚿ VERIFY
Hosting, form handling, third-party scripts

Richard reviewed the Lovable prototype, flagged redundant buttons, compared old and new site strengths, and helped think through safer tool use.

GROWING INTO BUSINESS DEVELOPMENT

RICHARD'S CONTRIBUTIONS

Asking. Tracking. Personalizing.

STRONG QUESTIONS
Pushed partner meetings past pleasantries into real needs.

BETTER DATA
Cleaner contact records, fewer blanks, fewer guesses.

PERSONAL TOUCH
Encouraged tailored outreach over generic templates.

Richard maintained the BD tracker, asked strong questions in partner meetings, pushed for better contact data, and encouraged more personalized outreach.
